

FLASHLIGHT SEARCH™

Activity

CVC Words

CONTENTS:

- 10 Sleeves
- 5 Wands
- 10 CVC Word Cards

SETUP:

This *Flashlight Search Activity™ - CVC Words* is designed for up to five students to use at one time. Provide each student with 1 wand, 1 sleeve, 1 CVC word card, and a dry erase marker (not included). The cards and sleeves have a matching symbol in the bottom right-hand corner so that your students will know which CVC word card to use with each sleeve.

HOW TO USE:

1. Students slide their wands into the sleeves and use the wands as "flashlights" to search for the the CVC words on their cards.
2. Decide which side of the cards your students will be using to keep track of the words as they find them. One side of each CVC word card features 10 CVC words with a box next to each word. Students use the boxes to check off each CVC word as they find and read it aloud. The other side of each card lists the CVC words and has lines for students to write each word as they find it.
3. Once students find all of the CVC words on their cards, they can take a different card, find the matching sleeve, and repeat until they have spotted all of the CVC words - or until the allotted amount of time for the activity runs out.

ADDITIONAL USES:

- As students find the words on their CVC word cards, have them write a sentence with each word on a separate piece of paper or in their journals.
- Students can make a list of "nonsense words" by searching each of the cards for words that are not real words.
- Pair with a timer and see how quickly students can complete one card.
- Students can use the reproducible on the back of this instruction card to practice writing their CVC words.
